INTRODUCTION

ICIEM2021 is extend from Smart Education Forum of [SHAI2020](#) (SHAI is Shanghai's most important and leading conference in AI field). Since the beginning of 2020, quite a few schools have adopted online teaching due to the spread of COVID-19 pandemic across the world, the importance of application in Internet smart education technology became more prominent. International education exchange also plays a vital role in building bridges between cultures throughout the world.

ICIEM2021 delightfully welcomes all the researchers and developers to share their experiences and ideas through research talks and presentations from diverse fields in modern education and education management. This event offers a platform in bringing together a forum for students, postdocs and established scientists to exchange their ideas and contributing an integrative approach to modern education and education management.

Note: ICIEM2021 will be held as webinar at the same time, we will combine our online and offline attendees. We are fully aware that our face-to-face meeting is and will remain the ideal format to share knowledge and research however, in light of the pandemic, we see the online conference as the best alternative to keep the spirit of our global community alive.
